

## UV and DUV Exposure Sources

Abet Technologies Model 12008 1W 6 x 6 DUV Exposure Source

### Innovative, Integrated and Adaptable

The Abet Gen II optical design, shared with all the solar simulators on the preceding pages, dramatically increases the percentage of photons reaching the work plane. All components are integrated in a single housing. 4x4 and 6x6 inch illuminated fields are most popular, other field sizes are available.

Dichroic reflectors are available to narrow down the spectral range. Additional spectral shaping can be achieved with filters, e.g. Model 12075 T-Topping for SU-8 resist, frequently used for MEMS generation.
