

FC-BBW-LED

Fiber Coupled Broadband White LED Light Source for Spectroscopy

Ver. 05

Introduction

The FC-BBW-LED Broadband White LED fiber coupled light source features wide emission spectrum from 400nm to 700nm. This wide spectrum is excellent for various reflection and transmission spectroscopy applications as well as color measurements. The FC-BBW-LED is a self-contained light source including all necessary driver electronics and thermal management, no special controller box is required to operate the module except a DC power adaptor.

Typical optical power from distal end of 1m fiber:

Fiber Type	Fiber Core	Fiber NA	Output Power
Silica	50um	0.2	4.5uW
Silica	200um	0.22	180uW
Glass	200um	0.66	650uW
Glass	250um	0.66	1.3mW
Polymer	250um	0.5	800uW
Silica	400um	0.37	1.7mW
Polymer	1000um	0.5	12mW
Polymer	1000um	0.63	14mW

General Specifications

Operation temperature range	°C	10 - 35
Storage temperature range	°C	-10 - 55
Operating relative humidity (Non condensing)	%	<90
Dimensions		See drawing below
Head weight	g	700
Power adaptor dimensions (LxWxH)		90 x 53 x 35
Power adaptor weight	g	190
Power Adaptor Safety		

Mechanical Drawings
